

ZONGWU: SIGN IN AN ARMY OF 100,000 AT THE BEGINNING

Chapter 7

Yan was originally a little afraid of Su Chen, but she didn't expect that as soon as she and her mother entered the city lord's palace, they heard that Su Chen was going to destroy Yan Zhiwu and capture two maids. This made Yan forget her fear and ran over. Question Su Chen

"I have met the lady and the princess."

Wang Meng was also notified by Zhao Kuan and knew that the king's wife and daughter had also come here. Now he felt a little embarrassed looking at the angry little princess.

He wanted to leave here now. This This is the Lord's family matter now, and he doesn't want it to affect the Lord and his wife.

"Wang Meng, you go do something."

Su Chen didn't expect that Jingyu and Yan would come over at this time. They might have misunderstood what happened just now, but Su Chen didn't know how to explain it now.

""Yes, Your

Majesty." Wang Meng ran out quickly after hearing this. He saw Mrs. Jun's cold face now. If something happens later, he will only embarrass your Majesty if he stays here.

"Su Chen, do you think you are worthy of my mother?"

"Let me tell you, girl, why did you say that I am like a heartless man? I am looking for some maids for you and your mother. Don't overthink it."

"Why don't I believe what you said? Are you lying to me?"

"No, how about this? How about bringing those two maids back and leaving them to you?"

"That's pretty much it, then it's settled, those two maids will be mine from now on."

"Yes, yes, it's yours, now let's go see our home." Su Chen smiled and picked up Yan, holding Jing Sala's hand and walking inside.

Jing Sala blushed and followed Su Chen after being pulled by Su Chen. She has nothing to do with this Wu Xiangjun now. , but Jingyu didn't break away when he saw Yan's happy look.

More than a month later,

Gusu City has returned to its previous liveliness, and Su Chen also canceled many exorbitant taxes and miscellaneous taxes, which made the people of Gusu City express their opinions one after another. Wu Xiangjun expressed his gratitude.

Without those exorbitant taxes, Gusu City has become more and more prosperous. Some businessmen have also come to Gusu City to start doing business. Now the population of Gusu City is also increasing rapidly.

Su Chen Yue also made distilled liquor. This high-altitude liquor was very popular as soon as it was launched, which also gave Su Chen some extra income. Su

Yan of Wuxiang Junfu watched Su Chen busy playing with his The item asked, "Dad, why haven't you succeeded in making this soap?"

"It will take a while, don't worry."

Su Chen rolled his eyes at Su Yan, the first girl, and was speechless. This was the sixth time Su Yan asked, is Su Yan a little too lively now? This is not like the gentle and quiet Yan in the anime..

In the past month, Su Chen has finally figured out the little girl Yan, but Su Chen hasn't figured it out yet. It's too cold. Su Chen doesn't know if he can't say a few words to her every time. It's time to say something to Jing Salamander.

Jing Salamander would say yes every time, OK, I understand, I got it. Su Chen felt that he and Jing Salamander seemed to be on two different channels, which made Su Chen not know how to get it. Let's attack the Frightened Salamander.

Su Chen didn't dare to attack the Frightened Salamander at night. With the Frightened Salamander's master-level strength, I'm afraid he would be discovered before he even started the night attack.

"Princess, it's time for you to study."

A'Zhu next to Su Yan came to Su Yan and bowed.

A'Zhu looked at Wu Xiangjun next to him and felt a little scared. She knew that Wu Xiangjun had almost wiped out the Murong family.

Now there are martial arts people chasing him everywhere in the world. A'Zhu knew that it was Wu Xiangjun's idea to kill Murong Fu.

Now after she and A Bi were captured, they were handed over to the little princess Su Yan, although she and A Bi were unwilling to serve the little princess here..

But after they were threatened by Su Chen, they had to be the maids of the little princess, otherwise they might really be sent to a brothel by this abominable Lord Wu Xiang.

Su Yan looked at Su Chen and asked expectantly,

"I understand, Dad, can I not study? I can write those words well."

"Ask your mother, if she agrees, I will agree." Su Chen smiled and said to Su Yan,

Su Chen is really eager for this little girl to leave. It may take more than an hour for his soaps to be ready. If Su Yan is here all the time, I'm afraid he will be obsessed with this little girl. So annoying

"Forget it, I'll go study"

"who? There are assassins, please protect the king and the princess."

At this moment, more than ten masked men in black suddenly appeared. When these masked men appeared, they rushed towards Su Chen. The surrounding guards immediately rushed to Su Chen. Surrounded Su Chen and Su Yan to protect them

"Kill this dog official and eliminate harm for the people"

"Go ahead and kill Lord Wu Xiang"

"Kill this bully who bullies men and women".....

These masked men screamed and killed Su Chen, as if Su Chen had killed their parents, shouting angrily and fighting with the guards.

Su Chen pulled Su Yan and looked at these assassins expressionlessly. This was the fourth time this month that someone had come to assassinate him. Su Chen had not found out who wanted to kill him yet.

But Su Chen suspected that Murong's family was responsible. Su Chen knew that Murong Fu's father was not dead, and that old treacherous man had been hiding in the dark and plotting some conspiracy.

Su Yan was not afraid when she looked at these assassins. She was used to being chased. However, these assassins were not very powerful. Su Yan looked at these assassins and felt that they might be used by someone.

A'Zhu was hiding next to Su Chen and watching these assassins. She was in a very complicated mood now. Since Su Chen came to Gusu City, the people here have lived a better life than ever before, and there are no excessive taxes and levies..

The people only need to pay some taxes, which are much less than in other cities. Even the taxes paid by the people here are There are one-tenth of other main cities.

If Su Chen is killed by these assassins, I am afraid that the city lord who takes over in the future will not be as kind to the people as Su Chen.

It's just that A'Zhu thought of Su Chen massacring the Murong family members, and A'Zhu thought that these assassins could kill Su Chen. Now A'Zhu didn't know whether Su Chen should be killed or not, and her heart was very confused.

"Ready the crossbow, fire it."

At this time, the guards immediately raised their crossbows and shot at these assassins under the command of the guard commander.

Swish, swish, swish, swish

"Catch them alive."

After a hail of arrows, more than ten masked men were shot to the ground. Some of the masked men were still alive. Su Chen immediately ordered the guards to control the assassins who were still alive.

"Yes, Your Majesty."

Su Chen asked with a cold face as he watched A'Zhu's expression change.

"A'Zhu, are you disappointed that I wasn't killed?"

A'Zhu said nervously after hearing Su Chen's words, "No.....without me...No.....Thought so"

"These assassins had better not be guided by you and Abi, otherwise you should know what I will do to you."
